Hey guys I need a little help here. I've been trying to relocate a mesh item for V3 of BloodRaynes costume. I've seen it used in others 3D images before and once owned it myself but haven't been able to relocate it. I do beleive the item was a freebie but if not I'll buy it. Here's a image of the costume <http://heromorph.com/heromorph2/modules/myalbum4/photo.php?lid=10657>
