Maybe this is the first time I start a subject... but I think it could be new and interesting.

AGE OF CONAN!

Now that's a wonderful soundtrack made for the homonymic game.

Composed by Knut Avenstroup Haugen, a brilliant artist from Norway, it's based on traditional themes that are succesfully brought together creating gracious or vibrant musics. If you liked the soundtrack made for the first Conan movie, composed by Basil Poledouris, you'll like this one as well.
