"Hate hate hate"? Mr. Daruma! Calm yourself! Go visit this site, sir. There's a message for you.

About the newest trailer: although I still think "Watchmen" should be adapted as a TV mini series, I'm liking what I'm seeing. Some sacrifices must happen in order to fit the plot into 2 hours.

I'm impressed with both trailers. We can identify the scenes! For me, this is the most important!
