First sorry if this is the wrong place to ask, but didn't really see a product support forum.

Now, as to my question. I just downloaded Peter Cottons Textures for the Generation 3 figures which 'm assuming are V3, A3, M3, etc. Included there is a texture named BatGirlHead Trans E.jpg & a bump named BatGirlHead-bump.jpg which corresponds to the fore-mentioned texture.   Can someone please tell me what figure these are supposed to be applied to? As I have tried them on the generation 3 figures with no success.

Thank you.
