I just finished watching the Wonder Woman animated movie and holycrapthatwasawesome! Seriously, GREAT movie -- it's the best one I've seen from the DCU direct to DVD flicks and the fact that it's rated PG-13 gives them so much more room to play. I highly recommend checking it out.

Also, there's a preview on the disc for the Green Lantern animated movie coming out this summer. And it made me pee a little. Looks fantastic, even just the animatics, storyboards and character designs they showed.
