The new run of 3-3.4 inch figures that are coming out: DC Infinite Heroes, Marvel Universe Fury Files, X-men Origins Wolverine, etc.

I've always had a warm fuzzy place in my heart for this size of action figure because of my childhood days of playing with classic Star Wars toys and Mego Pocket Heroes, as well as the larger counterparts with actual clothing, the classic Mego superheroes, so I still collect them and stuff. Any of the rest of you do so?
