I am, and im loving it. Its really good story and its bringing a lot of new col characters. the only thing i dont like that much is Hal becoming part of each and every Corps (i jsut wish he's not going Sapphire...)

Im also looking forward for Flash rebirth, does anybody has seen Wally's new suit??

WTF!?!

Hal is going to be a part of every colored Corps.

How the hell is that going to work, the Red Lanterns puke blood and have no hearts for cryin' out loud! I can see him going Orange perhaps since he was once corrupted by Parallax (sic), and that would make him able to go Yellow, but the Red is too far. Also, does every mean that He'll die again and go Black as well? That's just messed up.
