I refer to Dundst as 'Skeletor'

MJ is a real woman, she has curves!

She has breasts and hips and we can't always see her rib bones none the less her skeletal structure.

I swear in the movies I could always tell where her bones were exactly. It was disgusting and for GOD SAKES! could they get a real redhead!!!

I'm sure there are plenty of actresses with real red hair that have a woman's body. AAAAGGG!

That was my Spiderman movie rant...

As for Elisha Cuthbert as Black Cat I think she'd be a great Black Cat. She has the body (REAL BREASTS!!!!) OMG! I thought I'd never see some again.

She has the seductress sultry face and she is not a bad actress to boot. So she'd be great for the casting.

I'd love to see a different MJ. From the first movie I've really hated her, I think it all started with her annoying whine in Interview with the Vampire. But mainly it's the Skeletor aspect. yeah, it's that.
