Yvonne Strahovski is perfect for Gwen.

I know, The way they did the movie raped the storyline.

Like X-Men it had not much to do with the real story.

Do you know what's funny. They picked a natural redhead for Gwen Stacy and bleached her hair.

Then they picked a skeleton...ehem I mean natural blond and colored her hair red for MJ. The whole casting was wrong. This girl is perfect for Gwen Stacy, really. It would have been nice to see a movie that is accurate to the source material. I was so shocked at how accurate the Watchmen was (excluding the ending. But that was necessary. To include the street characters and have the normal ending they would have had to put in the Pirate comic and that would have made a four hour movie.

So they took out everything directly connected to the comic and the monster. I actually liked the movie ending more. It gave Dr. Manhattan a better reason to leave and a better reason for world peace.) I wish all of the other comic movies were that accurate.
