I've watched all of these shows, and while i can pick apart things about each, compared to what else is out there, I hope none get cancelled.

Chuck is funny. I am in love with Sarah Lancaster.

Terminator is cool. although it drags from time to time; one of the only sci-fi shows on the free networks with cool effects.

Doll house. I'm a big fan of Joss. Must admit was disappointed with the beginning of this series.

however, when I read an article, I had to agree with the author. this is typical of past Whedon projects. They tend to start off slow and get better once the characters and background plots are in place. If the season ending episode is any indication, I believe this to be the case here. Plus...did you see Eliza in the dominatrix outfit? woof!
