To tell you the truth I never watched Chuck, evne though it came on just before one of my favorite shows "Heroes" (which has had its share of problems since the first season).

I do like the "Sarah Connor Chronicles", though, and the season finalie (hopefully not the Series Finale) was quite interesting. I would like to see it continue, even if its considered a 'alternate reality' from all the movies (in pretty much the same way that the Highlander series was a seperate reality from all the movies [and all the movies were to each other]).

However, once Fox moved it to the 'death slot' of Fridsy night (and premiered Dollhouse in that slot), its cancellation is almost certain.

Sad to hear that 'Fringe' may also be cancelled, I had thought it was getting pretty good hype as a 'modern day X-Files'; and I liked that the 'Steward of Gondor' was getting some work worthy of his acting skill ^_^
