Hi everyone! I'm new here to HM but was recommended here by a few artist friends of mine. I'm a professional comic book artist. I do pencils,inks,colors, and digital painting. I've done work for a couple of adult superhero sites in the past, but have been branching off to more mainstream work. Here is a gallery of my work: www.neocene.deviantart.com
I'm going to posting up some of my artwork for you all to enjoy. If you are interested in commissions here are my prices:

\$20 for pencil drawing w/limited background

\$35 for pencil plus inks w/limited background

\$40 for full pencil/inks/digital coloring (includes a digital printout)

\$60 for full digital painting.

\$100 for a fully penciled sequential art page up to 6 panels! This is great if you want an original comic book page of your favorite characters based on your own ideas and stories!

\$15 for any additional character you want to include.

If your commission goes over 50.00 you get a free one character drawing!

Please feel free to content me regarding content.

Looking forward to hearing form you all!
