I'm looking for a specific sort of Supergirl picture. I'd like to find a black and white Supergirl picture in her original costume (symbol on chest, midriff covered) that I can use to do color variations beyond the regular blue-red-yello. Ideally, I'd just make multiple copies of a Supergirl image from a kid's coloring book on DC characters, but those kinds of books are rare and hard to find. If anyone has a picture like that already I can print, please let me know.
