I have never read Batman, was more of a Batgirl (Cassandra Cain) fan, before DC screwed her up, she gave up being Batgirl, started killing people and turned out it was Deathstroke drugging her. But it seems that was just the beginning, Bruce Wayne is dead, or is he just stuck in the past? Dick is Batman, Bruce's son Damien is Robin, Tim Drake is Red Robin? Anyone her read Batman, know when Bruce is coming back? Thoughts?

mine, #1 Bruce is Batman, #2 Tim is Robin, #3 Dick is Nightwing and #4 Cassandra is Batgirl
