In this topic I would like to point out sights that have pictures useful for making images of characters using only Photoshop.

Here are my suggestions:

<http://www.femalefightclub.com/>:

<http://www.modelmayhem.com/>;

<http://www.imdb.com/>;

(The pictures on the last site could be well spent to get names and faces to search for. I mean, "Charmed" alone had Jamie Pressley, Kaley Cucuo, Pat Bennatar, and Rose Mcgowan appear anywhere from as little as a cameo/musical guest, to guest star, to series regular.)
