There were colons at the end of each url.

If you would like to check them out, try now.

<http://www.femalefightclub.com/>

<http://www.modelmayhem.com/>

<http://www.imdb.com/>

How ever... none of these links are really good for anything. Sorry.

The first one is a members page.

The second one isn't bad... but not really helpful

IMDB.com's pictures are way too small.

I do appreciate your attempt, but they images are not High Res enough.

If you would like a nice page that has tons of High-Res images, go check out:

<http://www.theplace2.ru/>

It is pretty good if you are looking for main stream actress images.
