Come on now... if someone disagrees with you then you should just punch them in the throat and walk off. Today I wore my Iron Man Underoos, a Powder Puff t-shirt, and my Spawn baseball cap... and no one said anything to me... mainly because I left a line of bodies behind me.

I can possibly see butting heads over political views... but come on, not watching a movie because that super liberal goof ball Sean Penn is in it is insane... did you see "Mystic River"? I hate his views, but man, he can act (sometimes... go Fast Times!!!) But at the end of the day, you are your own person and you shouldn't give a flip about what other people think about what you wear, your political beliefs, your theological beliefs, your musical likes and dislikes.... etc. Effe them if they don't like it. Besides, Spidey and Superman are great... even though DC sucks (besides Harley).

Oh, and I can't effen believe that you put DC over Marvel... what the hell is wrong with you!!!
