Hi,

Over the years, People have asked us about the adult sections to the site and if there's an option to turn them off in a user account. We had a recent request for this same thing and really thought about it how to work around our software.

Well we still do not have the ability to make it a user controlled in your accounts. But the admin do have the ability to make the change on your accounts.

So for those of you that does not wish to have access to our adult gallery. You can simply sign up to this thread or send one of the moderators a PM or E-mail and ask us to change your accounts access to the site.

This change is semi-permanent, you would have to request an admin to change it back if you ever changed your mind.

Now this would be completely voluntary and would not change the rule that every member has to be at least 18 years old or more. But for those of you that do not like the adult gallery and have no desire to see it, we can make that happen for you. Or for those of you that surf the site at work regularly and don't want the occasional boob on screen this is an option for you as well. This change would be for the adult content in the adult gallery only and would not effect the fan fiction section. since the two adult content is mixed with regular content for our fan fiction we can not remove the ability to see one with out the other at this point.

So far this isn't an option for gold members as they have a much larger access then the other members that include other sections of the site that may or may not include adult content so I wasn't sure if gold members would like to have a change as well. If you are a gold member please contact me and we can discuss different options.

So again if you want your Heromorph to not have the adult gallery please either reply this thread, send one of the moderators a PM, or E-mail and ask us to change your accounts access to the site.

Thank you
