I thought the last two were already a reboot??!!

I thought the 2nd (Rise of the Surfer) was a considerable improvement over the first and did a pretty good job at capturing the spirit of the old Kirby/Lee stuff. Not sure what "reboot" means in this instance but I know that writer Michael Green had worked on Smallville and while that worked well enough for the small screen, personally I'd prefer not to see FF get the sort of overhaul he gave Superman. Let's hope it's a good move.
