I like how this is starting. Kinda an "opposite of sci-fi" from what I'm used to seeing here from you, but that's what's got my attention on this one. Looking forward as usual to the progression. And yeah, 10 years is a long time to wait before figuring out how to use them tablet skills...but who am I to talk. I still can't program my Betamax VCR, or work my 8-track.

I actually kinda like this one as is, too. Should be another good one.
