Nonsense, co! I see no "problem" areas here. Very seductive pose for this bad-arse babe. Follows very well with the rest of yours in this series. Do I see a compilation book on the horizon? I like the whole series, and this one looks to only compliment and build upon its predecessors.

As for the left arm...hmmm....if you insist on it not being as great as you'd like... Perhaps with a slight twist in her torso, her left elbow could be not quite touching the crate? (Would leave room for a little more cleavage showing to humor the HM fans)

But I still think it already looks pretty darn co_04-ish (which means "awesome")
Can't wait to see more.
