It seems my brain is hard wired to require I am looking at what I am doing to have fine motor control.

Mine, too. I can't even type without staring at my keyboard. And I wish I was as "uncomfortable" at sketching as you claim to be with your tablet.

Both these characters look great, and I can't even fathom where you're taking them after the prelims. But I am definitely looking forward to it.

And Winterhawk ...

Mommy?

I seriously spit food across the room when I saw that.
