Ok A little confused.

are you saying you are wanting an actual figure to use in poser(Which is not the idea of this event) or are you saying you will do an image in poser of the FF using James and Jessie models? (Idea is you pick 3 characters once you put your name in to participate. When your name is given to one of the other artists to be your secret Santa, they choose one of the 3 to create for you in the medium of their choosing, only thing you get input on is if you want it adult or not)

and the links you posted, are these samples of your work or they the characters you are putting down as your list?
