I liked it! I now am filled with a need to know how Nexius got away though...

Glad to hear "the hook" worked!

That will be explained in the beginning of the next issue although there probably be more questions by the time I reach it's end.

...and thank you very much too, Chief!

This is so awesome you were able to put this together. I always thought the story was well done, and putting it in the HM comic book format made it that much more enjoyable.

I rather like the easy navigation of the comics section here myself. Big props and thanks to Hawk for gathering all those pages and posting them there and also to Haz for his most excellent revised cover and banner!
