Miss March was god awful, but I actually laughed a lot during Land of the Lost. but that could also be that it was late and I had a friend over with a goofy laugh who thought it was hilarious.

Street Fighter The Legend of Chun-Li : was horrid

Dragonball : We tossed popcorn at the screen. Talk about nothing to do with the original!

Obsessed : An awful unofficial remake of Fatal Attraction. I was furious about this one.

Wolverine : had to be the WORST comic movie made. They just raped every character they could...again...and again...and again. But I wasn't surprised after X-Men 3

GI Joe: Also had not much to do with the original and the action was really boring cause there was no story and I did care why it was happening.

I really have to say It's difficult to pick my favorite but I really thought Inglorious Bastards was FANTASTIC!!! one of the best of '09, along with The Watchmen, Avatar, Star Trek, Princess and the Frog... actually there were a lot of good ones too.

This is what I thought at least.
