Transformers 2 was probably put up there because of the humans (ie:Shia's parents,they were terrible in the movie, the government was portrayed as more alien than the Autobots, and Shia was a whiny crybaby throughout most of the movie. In fact, the only human who was any good in the movie besides the military was Megan Fox.)

Like I said. A bad plot did not make T2 a bad movie. Over the top effects and action can make even the worst scripted and acted movie worth seeing again.
