Wolverine : had to be the WORST comic movie made. They just raped every character they could...again...and again...and again. But I wasn't surprised after X-Men 3

GI Joe: Also had not much to do with the original and the action was really boring cause there was no story and I did care why it was happening.

Sorry to disagree Reed but I liked those movies, Wolverine it's not the best but I think it's better than X3 and GI JOE it's a good popcorn movie, the story isn't that bad.

Are you kidding me? You're saying you rather see a chopped inconsistent version of the origin and pre-x-men times of Wolverine [which was gawd awful and although not the worst of the year but the most disappointing] than seeing Magneto, Juggernaut [although a somewhat lame version] but most of all the unrelenting power of Dark Phoenix? C'mon you just had to love how she blew away a wimpy Cyclops and disintegrated Prof. X. Not to mention seeing fulltime action from both Iceman and Shadowcat. Excellent stuff.
