Ok Boys.

Sleepenemy- Textures, I have noticed you are the king of smooth, you do latex perfectly but I noticed that you have a very distinct lack of textures. My homework to you would be to have a character/characters in a manip with some textures on their costumes. Maybe Metamorpho, he has lots of textures on him, or someone with fur or chain mail, something like that.

MatrixBlur-- Cloth. Do a manip with lots of fabric. Think big flowing and hanging cloth. I will leave you with that.
Have Fun.

Does any one need help with their homework? If anyone needs any assistance just ask. I know I will help and I am sure everyone else here will be willing to give a hand.
