Here is my take on these movies.

KING KONG-Death scene (Haha Monkey fall down go boom, Maybe because King kong was so iconic, I was neither surprised or upset when this occurred, I even thought the chick was a little crazy for being upset.)

RED DAWN-Father asks to be avenged before dying (the dad was a douche)

TERMINATOR 2-Arnold giving the thumbs up before melting (pure corn, Hasta la vista, baby!)

STAR TREK 2-Spock dies (if he has green blood why were his cuts and bruises purple and red?)

RETURN OF THE JEDI-Vader dies (At first I thought it was cool, good guys win, then he showed him beside the other jedi's like Obi and Yoda and I was a little pissed. So you can get to be a total jackstick Mofo and then turn half decent for the last 5 min and boom he gets to be a good guy. and really, do we know his motivation. He was after all a dark sith lord. He could have very well thought this was his big chance to get a promotion by offing the old man but ended up getting ganked himself and then figured. what the hell, I'll give my kid a little something nice since I cut off his fucking hand and murdered his adoptive parent and teacher)

GOONIES-"It's our time." (corn)

ET-ET bids goodbye before leaving (I think I may have cried when I was a small child, when I first saw it, I watched it again a few years ago, eh, it was kinda boring)

Maybe this is a list of movies that girly men cry at.
