I'm all for having a close relationship with your siblings (Remember: One day your parents, aunts and uncles will be gone and they'll be your only link to your family.) but I definately think Stan went overboard with the 'dear brother/dear sister' bit in those early X-Men/Avengers comics. Since I don't read new comics anymore, I only found out about this from Linkara's review of Ultimates 3. And I thought 'Marvel Zombies' was gross?!

(Yes, I know I did a dirty pic of them doing it once but that was for fun, not part of any formal Marvel continuity. Big difference!)
