Looks real good!

As was said, great story, characters, hot babes, etc.

So I'll comment more on the composition to avoid redundancy...

Great composition!

The individual panels are set up nicely to compose interesting pages, and the pages come together equally nicely for the whole comic.

Varying camera angles, "mirrored" viewpoints and panel symmetry used excellently to compose each page uniquely!

Vibrant use of colors as well.

Only minor technicalities I saw were minuscule poke-throughs, but not many at that.

And those definitely did not take anything away from the excellent artwork, posing, hot babes, action, drama, suspense...and all the other stuff that made this awesome.

Very well done!

I agree, a must-see for everyone.

Thanks for posting this for us !!
