There are a great number of skins out there for all manner of hero but I noticed one that was in short demand...Woverine. There are no masks (Claws yes but no masks) and no skins or uniforms (save for the movie version)I would create one from scratch myself but I lack the skills necessary. So consider this a request or a challenge. I would happily pay for a good wolverine outfit Brown & Orange, Blue & Yellow, Avengers, or the current easy to do Black & Grey.
