hey,

first summer movie I saw and I enjoyed it. this DJ from a New Hampshire station said that Robert Downey did a great job at playing Tony Stark as an arrogant asshole who is a shameless womanizer and roaring alcoholic, which he is. Mickey was great as the Russian villain and Scarlett was decent as Black Widow, though I imagine purists were disappointed she didn't wear the old school bodysuit with the spider design. in all, I was entertained and I look forward to seeing IM3.
