hey Morphites,

how's it going? so, Megan Fox is out of Transformers 3 and a British model Rose Huntington-Whiteley is the new love interest. I was wondering how Bay wrote out Mikeala. does she die in the first 20-30 minutes? does she and Shia break up and she moves away? or will this be a case of her not having even existed? curious minds want to know. guess we'll find out by next July.
