LOL. Hand drawn images I can post here or I can e-mail em to you. Hand drawn images take a bit longer but yeah I can do either or both. I have to be clear on this you want a 3d render of a character you already rendered in 3d? I guess I could give you a different version of the guy unless you wanted something specific that you weren't able to accomplish yourself. Send me some specifics (setting/colors/hair etc.)and I'll get right on it.
