Hmmm...

A DC character re-write? Never heard of such a thing.  
But it sounds great.

I think they should do all the DC characters that way.

They could kill off Superman for starters, then bring him back with long hair. That'd be cool.

Maybe break Bruce Wayne's back...let Dick be the bat for a while...or just kill him outright. Then bring him back in a darker costume with less comical undertones.

And how about Green Arrow...he could blow up in a plane!!!!  
That'd be awesome.

I guess that's what happens when DC's writers run out of ideas...they re-run old ones.

Too bad DC revamped Wondy in the 90's with the whole loss of the Amazon Title to Artemis. But I guess they didn't give her pants then (just a jacket and gloves), so this is different, huh?

I'm sure this'll be ok, all of the die hard classic wonderwoman fans survived the change from culottes to the bodysuit afterall.

And Lord knows WonderWoman should leave a Zorro-esque signature on her captives, too. (Very Princess-like to Brand the vanquished, eh?)

On a less sarcastic note, maybe bringing her into the more modern attitude could be just the thing to get more new readers to join her fan club, what with all the pantsuited Wonderwoman cartoons and movies out there...
