JMS is hardly the "latest dumbass writer". He's been around for a while now and is very good at what he does. He got most of his fame working on Marvel's Ultimate universe line. Reinventing heroes is what he does well. Also, sometimes you have to remember that writers are given assignments by their publishers mostly. I don't know if DC assigned this to him or if he pitched and they signed off on it though.

I also think Jinky C. should do the art!
