What is your ideal "Seven Soldiers of Victory" lineup? My ideal team is Firestorm with Mr. Terrific in his head, Creeper, Jason Todd, Wild Dog, Ambush Bug, Vigilante III, and Captain Boomerang. I want this lineup because lineup should not happen. Too disfunctional. It would be a grwat thing to throw these guys at Doomsday, if they had Magic weapons.

Now that I've stated mine, I want to hear what your ideal seven soldiers are.
