From what I see about those few photos...I don't like the costume at ALL!!!! I like the fact that it is a WW II theme..but I hope it goes more modern. The suit is too baggy, the color scheme is wrong, and what is with those grey strips on his chest?? I hope that is not the helmet he is gonna wear throughout the movie....yeck!!!! The shield looks damaged in other picks I've seen. And what the hell is it, that every friggin time a new super hero movie come down the pipe, they gotta go the Ultimate's route? What the hell is wrong with doing an origin and staying true to the roots of the character, and not branching off into some stupid sub-universe they made just to up sales? I can't stand that. That is definately the Ultimates look for Cap shown here, they even have pieces that look like it came off a moto-cross riders armor. But, that's my 2 cents worth.
