Weirder, wilder, and more whacked-out than the first, April's 2nd comic is now available at IndyPlanet http://www.indyplanet.com/store/product_info.php?products_id=4134

You've already seen many of the pages in development here at HM over the months, and now all 28 pages are print-on-demand in blazing color.

And if that weren't enough, look for the new foreword by our very own Biohaz Daddy!
