I say give MissVee all the thongs, with the provision that she send in some pics of them "in use" by some of her wonderful models.

Not sure why them lazy manipppers didn't jump on the chance to have input into Lady HM's underoos...lord knows I rushed the repair/re-install of my photoshop program just to take a crack at her thong...

Must be Dar's fault.

Oh, wait...I guess I'm one of those lazy manipppers, seeing as how I haven't done a manip in longer than JR now...(just kiddin' Mr. McDeath, Kaptain Kangaroo was WELL worth the wait)

So I agree with co_04 on the possible extension.

Either way, I had fun poking around at her undies, and poking fun at the mods, too.

Maybe next time we can do her top...
or design the Lady HM "tramp stamp"
