Hi heromorphers!

I need your help, I'm working on a few commissions, but one of them is getting damn difficult to find the right base pic, the character is the wasp, and my problem is finding one good base pic with her hair style.

I was hoping if you can help me to find the right pic, or if you can give a few names of models that can fit the next descriptions so I can google them.

1. need a cute face (pretty)
2. great body
3. high quality and big (1200 pixel height)
4. the most difficult part, short brunette hair like the pic.

thanks.

DK
