Sci-fi channel's,excuse me now the trade-markable (sic) Syfy, back alley abortion remake of Flash Gordon. Absolutely the single worst mind numbing skull F\*\*k I have ever had the misfortune to almost watch. I say almost because, well it was on my TV, my eyes were on the screen but nothing seemed to resonate. I realized it was my brain trying to protect me from the horror painfully unfolding before my eyes.

So you wouldn't recommend that show?

The top three I had the "pleasure" of enduring their torture were:

3. BJ and the Bear (previously mentioned I think by JR)

2. Manimal

and the worst

1. Automan

And yes....I actually saw full episodes of each.

(I hadn't started taking good medication yet)
