Hello everyone! Just to let you all know I am currently taking commissions over the holidays! Here are my rates and links to my deviantart site so you can see more of my work.

These are for 2D drawing:

\$20 for single character with minimum background

\$45 for one character with digital coloring (similar to the Baroness I just did)

\$60 for a one character digital painting (Similar to the Harley Quinn Drawing I have posted)

\$100.00 for a full sequential Black and white page.

For 3D work I charge the following depending on size and resolution of the picture. I have a ton of different outfits, settings, characters, props, aliens, etc to pretty much make a complete 3D comic if you're interested. See my samples in the the adult galleries. I can also do custom morphs if you want your character to look like a certain lady!

\$25 for a single character shot

\$35 for 2 character scene

If you're working on a certain budget just me know and we can work out an arrangement.

I look forward to working with you all!
