Darn it, I really hate to be asking; since I mainly post a dirty picture or two and leave.

But a commission (a very nice one money-wise) has dropped in my lap out of the blue; and I'm looking for a ancient 3d 'freebie' that I cannot find anymore.

So if any of you ancient Poser artists out there have a old 'Mars Attacks' figure; I'd really be appreciative if I could get a copy of him/it. The commission revolves around that specific figure in my usual alien/female themes.

Thanks much in advance, and I apologize for having to ask like this,
