I'm going to say HOT. But her character is awful and they make her look a lot duller on TV, so a close call.

That being said, I may use her photo for a manip one day. (Why would we need a nude picture for a good base image?)

Okay my turn, this is pretty hard. My first instinct was to put up an obviously attractive woman, but that would be pointless.

So here we have Laura Kightlinger. Unlike Julie she looks better in her show than her photos. She's hilarious and talented, but is she HOT or NOT?
