I was willing to give this movie a chance even though I totally loved ALL the Tobey Mcguire Spiderman movies, but after looking at this pic I have come to realize

I absolutely HATE this costume! Because...

1) The webs don't go all the way down.

2) The gloves are all wrong.

3) The legs on the spider emblem are way too long.

4) He looks like he's wearing a basketball.

5) The red waistband is gone making him look like he's wearing pajamas.

6) The red on the front of his costume looks like he's wearing a long ass bib.

7) For the first time I'm glad they didn't show his mask (Lord knows how messed up it's going to look).

I was going to go to the theater to watch this but I think I'll wait to see it on regular non-cable T.V.
