If you want to see a 5 sec animation, based on the first page of the latest comics, it is available at YouTube: [You're a disgrace to the Legion Academy!](#) Voice is generated with "Savoy Text to speech" software.

If you want to see all charaters in idle position (breathing mostly) and a little extra information of some of the characters, a simple software is available at [The game?](#) - torrent at PirateBay.org

Alpha version contains "Idle" animation of all figures shown (except Wildfire). Blok and Phantom Girl contain 2 more animations. When in menu they start and stop automatic (approx 20 sec. interval).

Installer is 394 Mb and a uninstaller is provided. Installed on disk it is 458 Mb.

You need a screen resolution of 1024x768 or better.

Tested on Windows XP, Windows Vista and Windows 7.
