hey,

we've all seen the commercial for Free Credit Score with the guys in the bodystockings. I'm sure people are wondering what would they look like as women. I came up with three ideas as to what they could look like and if anyone would be up for giving it a go. I was thinking:

Kate Hudson:

Brooklyn Decker:

Cameron Diaz

I am sure there are others, but these three come to mind. any takers (yes, I checked the links and they do work).
