but idk about that scaly look on the rest of the costume...

It is because he is boning Aquaman.

I have to agree... Supes is not a Scaly outfit kind of dude. And I can't believe they are making another Superman movie with a new actor. I am bored. I guess I can wait until they make another movie with Superman #4 before I get the movie on Netflix.

Poor DC... they only have 2 heroes that they can make movies about... the rest of their lineup sucks. Hell, even poor ole' Wonder Woman's TV deal fell through. Keep it up Marvel... even though your movies are sub-par... at least they are about different heros. THOR... Green Lantern... really?
